But they are green and nice in summer. On Saturdays and Sundays there are a lot of people and cars in the streets. The people of our town and from the countries around try to do shopping.

We can see a lot of people in the parks in our town. In spring and summer there are a lot of grannies and little children in our "Children Park." Grannies usually sit or walk. And their grandchildren like to play balls, ride small cars, run and jump. This park is the best place for our children.

In summer when it's hot people like to go to the river. It is not very long and wide, but it's warm and clean. There is a bridge across the river. Next to the river there is a large field. In summer it is yellow and beautiful.

Some houses in our town are big and tall. But there are small houses too. They have got small gardens with trees and flowers.

There are six schools in our town. My friend and me go to school number six. We are good friends and good pupils. In winter we like to skate and ski. We like our school and our town.

A Good Lesson

Once a rich Englishwoman called Mrs Johnson decided to have a birthday party. She invited a lot of guests and a singer. The singer was poor, but he had a very good voice.

The singer got to Mrs Johnson's house at exactly six o'clock as he had been asked to do, but when he went in, he saw through a door that the dining-room was already full of guests, who were sitting round a big table in the middle of the room. The guests were eating, joking, laughing, and talking loudly. Mrs Johnson came out to him, and he thought she was going to ask him to join them, when she said, "We're glad, sir, that you have come. You will be singing after dinner, I'll call you as soon as we're ready to listen to you. Now will you go into the kitchen and have dinner, too, please?"

The singer was very angry, but said nothing. At first he wanted to leave Mrs Johnson's house at once, but then he changed his mind and decided to stay and teach her and her rich guests a good lesson. When the singer went into the kitchen, the servants were having dinner, too. He joined them. After dinner, the singer thanked everybody and said, "Well, now I'm going to sing to you, my good friends." And he sang them some beautiful songs.

Soon Mrs Johnson called the singer.

"Well, sir, we're ready."

"Ready?" asked the singer. "What are you ready for?"

"To listen to you," said Mrs Johnson in an angry voice.

"Listen to me? But I have already sung, and I'm afraid I shan't be able to sing any more tonight."

"Where did you sing?"

"In the kitchen. I always sing for those I have dinner with."

1. Mrs Johnson asked a singer to come to her birthday party.
2. There were a lot of guests at her birthday party.
3. The singer had dinner with the guests in the dining-room.
4. The singer sang to the servants after dinner.
5. The singer taught Mrs Johnson and her rich guests a good lesson.

Задание №2 Прочитайте тексты и установите соответствие между текстами А–Г и заголовками 1–8. Используйте каждую цифру только один раз. В задании есть один лишний заголовок.

1. Is there any risk-free alternative to tattoo?

2. What equipment is used?
3. What are the motives for getting a tattoo?
4. What is tattoo ink made from?
5. Is getting a tattoo dangerous?
6. What are the most popular tattoo designs?
7. How old is the tattooing tradition?
8. Can tattoos be removed?

A. Tattoos are surprisingly popular in different parts of the globe. The oldest tattooed person, the so-called Iceman, is a frozen mummy found in the Alps in 1991. The frozen man, aged more than 5000 years, has 57 tattoos! The scientists think that they were created with some sharp instruments like thorns, and ash from fireplace was used instead of ink. There's also a theory that Iceman's tattoos were made for medical reasons rather than for any other, reason.

B. Medical tattoos mark the places where acupuncture needles need to be used, however, that reason for getting a tattoo is rare. Tattooing for religious and spiritual reasons happens much more often. Soldiers and sailors get tattoos in memory of their battles and journeys. Some people tattoo the names of those they love, and some get tattoos for no reason at all, just because they think it's cool.

C. There are lots of tattooing techniques. Some tribes in Africa make cuts on the body and rub ash into them. Tattooists may also work with sharpened sticks or animal bones — the procedure is painful and not at all hygienic. In modern studios electric machines are usually used. They have one or more needles that quickly go in and out of the skin. The machine has ink containers and the ink gets into the skin via the needles. For safety reasons the needles should only be used once.

D. In the past, tattoo ink was made from tree bark, ash and coal dust. Later, pen ink was often used. Today, the inks produced by factories are usually made of metal salts and metal oxides. Heavy metals are used for colouring too: cadmium gives red and orange shades, aluminum — green and violet, cobalt — blue, titanium — white. There's no need to say that heavy metals may cause allergies and some far more serious diseases, cancer included.

E. Parents may get outraged by their children's desire for tattoos and they've got good reasons to get panicky — apart from ink related risks, getting tattoos is associated with the risk of infection. Anything from skin infections to tuberculosis and even AIDS can be transmitted via the instruments. If the tattooist ignores strict hygienic requirements, like using fresh ink for each session, changing gloves after each stage of tattooing or disinfecting the furniture, the client may catch a very serious disease.

F. Another reason against permanent tattoos is... their permanent character. You may like it now but people tend to change their preferences. A safe alternative is a temporary tattoo which lasts for only a few weeks. Their main advantage is that the skin is not damaged — the tattoo artist just applies henna on it. This type of tattoos is popular with fashion models who care for their bodies and don't want them to get damaged.

G. The actress Amy Taylor says that she got her tattoo when she was sixteen. She thought it was cool, but several years later the tattoo became a nuisance. Amy wanted to get it removed. She believed that modern technologies like laser treatment could do it easily but the doctors warned her that the tattoo wouldn't be fully removed anyway. The treatment is usually long, expensive and rather painful — getting the tattoo is much easier.
